**MLGW hosts FIRST exhibit during Public Power Week**

MLGW’s Junior Engineer/Professional Engineer program (JEPE) and the Tennessee Valley Authority recently hosted a FIRST (For Inspiration and Recognition of Science and Technology) robotics exhibit. FIRST participation encourages students to pursue education and careers in STEM related fields and inspires them to become leaders and innovators. These students are likely to be some of our nation’s future Public Power professionals. Students comprised teams from seven schools which showcased their robotic and LEGO creations. (continued on inside page)

**Submission deadline:**
Friday, Dec. 2, 2016
Information: 901-528-4820 (Monday-Friday, 8:30 a.m.-4:30 p.m.)
MLGW and TVA support developing a future workforce skilled in the practical application of science, technology, engineering and mathematics (STEM). Robotics programs provide a fun, competitive way of encouraging STEM skills in all children regardless of gender, race or socioeconomic background.

What do you get the person who has everything?
MLGW’s Gift of Comfort program enables you to make a payment of any amount toward a specific customer’s utility bill as a gift. You only need to know the recipient’s address. Complete the Gift of Comfort form at mlgw.com and follow the mailing instructions, obtain a form at one of our community offices or call 544-MLGW(6549). Your gift will show in the form of a credit on the recipient’s MLGW bill.

MLGW employees raise funds for worthy causes
Each year, MLGW participates in the Food Bank’s area-wide Operation Feed campaign, raising money to provide meals for families in need. This year, MLGW employees came together to raise $29,822, enough to provide nearly 90,000 meals for families in the Mid-South. The Food Bank recognized MLGW’s efforts as earning the second-highest amount for companies with between 1,000 and 4,999 employees. “Some people really don’t know where their next meal will come from,” said Cliff DeBerry, Analysis Strategy and Perf., “so it’s always an honor to participate in this particular campaign.”

MLGW workers and friends also contributed $10,000 to United Way by recently hosting a golf tournament. The golf tournament was rescheduled due to the severe storms on June 15, requiring many of the participants to work overtime on restoration efforts. MLGW Organizers Ryan Groves and Robbie Gaia, worked hurriedly to reschedule the event benefiting United Way.

The event was an enormous success. Thanks to all the organizers, key people and participants.

Private Gas Pipelines on Your Property?
Do you have a private gas line to heat a separate building or operate a gas grill, gas light, pool heater or generator?
If so, federal regulations require MLGW to make homeowners aware that they are responsible for maintaining any private fuel line on their property that extends beyond the meter. If improperly maintained, such gas lines may corrode or leak. Check for leaks or damage, and call a licensed plumber to locate, inspect and make any repairs.
