

# Back Flow Repair Classes on Thursday April 9th

MLGW Cross Connection will be hosting **free** back flow repair classes at the MLGW University campus located on **4949 Raleigh La Grange Thursday April 09, 2020.**

**Please know these classes are not mandatory.**

Instructors from the manufactures **ARI, Derringer, Watts, Wilkins,** will be on site conducting the repair classes to answer any question you may have and providing education, tips, and techniques.

**Please know per Shelby County Code Enforcement you are able to go into check valve #1 and wipe off the gasket, flip the gasket over and remove any trash in that #1 check. You cannot introduce anything new into the device at that point it would be considered a repair and you must be a plumber, and or working under the license of a master plumber to make a repair.**

**Please circle your session(s) below** and select the time of your choice, and e- mail this form to [crossconnection@mlgw.org](mailto:crossconnection@mlgw.org) or fax it to our office at **901-528-4658.**
