

Annual Solar Power Generated by Green Power Providers Participants in Shelby County

 Total kWh Generated	3,462,434	4,513,257	4,647,277	4,231,613	4,627,440	4,499,520	4,531,267
 Cumulative GPP kW installed by year-end	3,009	3,284	3,368	3,468	3,566	3,645	3,778

Green Power Providers participants install onsite renewable generation (typically solar), interconnect to MLGW's electric system and sell 100% of the output to TVA under 20-year agreements, with generation credits applied to their monthly MLGW bills. For information about Green Power Providers and other distributed generation options, visit www.mlgw.com/greenpower
