

**MEMPHIS LIGHT, GAS AND WATER DIVISION
CITY OF MEMPHIS
ELECTRIC SERVICE SCHEDULE DPS**

DRAINAGE PUMPING STATION RATE

AVAILABILITY

Available for electric service not in excess of 5,000 kW to a municipality or other Governmental Agency for the operation of pumping apparatus, the use of which is occasioned by floods and is extremely intermittent.

Electricity supplied under this rate schedule is for the exclusive use of the Customer and shall not be resold or shared with others.

CHARACTER OF SERVICE

Alternating current, three-phase, 60 hertz. Power shall be delivered at a service voltage available in the vicinity or agreed to by Division.

BASE CHARGES

Customer Charge: \$15.52 per delivery per month

Energy Charge:

	Summer	Winter	Transition
All kWh per month:	\$0.03351	\$0.03079	\$0.02918

DETERMINATION OF SEASONAL PERIODS

Summer Period shall mean the June, July, August, and September billing months. Winter Period shall mean the December, January, February, and March billing months. Transition Period shall mean the April, May, October, and November billing months.

TENNESSEE VALLEY AUTHORITY FUEL COST AND PURCHASED POWER ADJUSTMENT RIDER

The above rates are subject to adjustment under the provisions of the Tennessee Valley Authority Fuel Cost and Purchased Power Adjustment Rider.

ADJUSTMENT

The base demand and energy charges shall be increased or decreased in accordance with the current Adjustment Addendum published by TVA. (In addition, such charges shall be increased or decreased to correspond to increases or decreases determined by TVA in the value of the hydro generation benefit allocated to residential customers.)

FACILITIES RENTAL

In the event any demand, as determined under the provisions of Determination of Demand below, coincides with Division's highest delivery point demand for purposes of determining the monthly wholesale billing by TVA to Division for facilities rental for the delivery point at which Division takes the power and energy made available under this rate schedule, the customer shall pay to Division, in addition to all other charges under this rate schedule including minimum bill charges, a monthly facilities rental charge equal to such wholesale billing for facilities rental multiplied by the ratio of such demand to Division's said highest delivery point demand. When a facilities rental charge becomes applicable hereunder it shall continue for every successive month thereafter in which Division's wholesale facilities rental charges are based on Division's highest delivery point demand with which such demand coincided.

DETERMINATION OF BILLING DEMAND

Division shall determine, in such manner as it deems appropriate, the demands in kW of all customers to whom service is available hereunder. The demand as so determined shall be the higher of (a) the load in kW or (b) 85 percent of the load in kVA.

MINIMUM BILL

The customer charge constitutes the minimum monthly bill for all customers served under this rate schedule except those customers for which a higher minimum monthly bill is required because of special circumstances affecting Division's cost of rendering service.

CONTRACT REQUIREMENT

Customers to whom this rate schedule is applicable shall be required to execute contracts, and such contracts shall be for a term of at least 5 years.

PAYMENT

Bills under this rate schedule will be rendered monthly. Any amount of bill unpaid after due date specified on bill may be subject to additional charges under Division's standard policy.

SINGLE-POINT DELIVERY

The charges under this rate schedule are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of service at each delivery and metering point and at each different voltage shall be separately metered and billed.

Service is subject to Rules and Regulations of Division.
