"Period of Curtailment" is defined as that period of time beginning one (1) hour after notice by the Division's dispatcher that the "Period of Curtailment" has begun and ending when notice is received from Division's dispatcher that the "Period of Curtailment" has ended. Verbal notice by telephone from the Division's dispatcher to the Customer or his authorized agent shall be deemed to be proper notice.

If, for any reason, Customer taking service under this rate schedule continues to take gas during any "Period of Curtailment" there shall become due and payable to the Division, not as a penalty but as liquidated damages, an amount equal to \$1.50 per Ccf for all gas taken. The minimum monthly bill shall be \$.3310 for each Ccf of the higher of: (1) the Maximum Daily Demand during the twelve (12) months ending with the billing month, or (2) the Daily Contract Demand, but in no event less than \$285.40.

SINGLE POINT DELIVERY AND JOINT SERVICE THROUGH ONE METER

The above rates are based upon the supply of service to the Customer's premises through a single delivery and metering point, and at a single pressure. Separate supply for the same Customer at other points of consumption, or at different pressures, shall be separately metered and billed.

The customer shall install and maintain at its expense any equipment deemed necessary to provide service under this rate including, but not limited to, telephone lines and power outlets.

For customers receiving service under more than one rate schedule through one meter, the volumes delivered under each rate schedule will be determined as provided by the Rules and Regulations of the Division.

Customers who receive service under more than one rate schedule through one meter, and who take gas during a "Period of Curtailment", are subject to have full service (including any firm deliveries) through the one meter discontinued.

VOLUMETRIC RESTRICTIONS

The Division reserves the right to require a new contract from any Customer whose Maximum Daily Demand is less than his Contract Demand, and further reserves the right to prohibit the addition of any loads in excess of present loads or present Contract Demands without prior Division approval. Any Customer who violates these restrictions may be required to remove the excess load requirements or have full service discontinued.
