

2024 Backflow Repair Classes

The classes will be held at the Cross Connection Training Lab located at Mallory Pumping Station at 488 N. Dunlap St, Memphis, TN 38105. Please know these classes are not mandatory.

Instructors from the manufacturers Watts will be on site conducting the repair classes to answer any questions you may have and provide education, tips, and techniques.

Please know per Shelby County Code Enforcement; you can go into check valve #1 and wipe off the gasket, flip the gasket over and remove any trash in that #1 check. You cannot introduce anything new into the device; at that point, it would be considered a repair, and you must pull a permit, be a plumber, and or working under the license of a master plumber to make a repair.

Please circle your session(s) below and select the time(s) of your choice(s), and e-mail this form to crossconnection@mlgw.org or fax it to our office at 901-528-4658.
